THERMAL PERFORMANCE SINCE 1884

News 07/2021

HERING supplies heating circuit water for big corporation in Nuremberg

In cooperation with one of the worldwide biggest construction companies HERING supplies 6 pieces of shell & tube heat exchangers to Nuernberg.

The shell & tube heat exchangers are designed for an operation in serial connection und will supply heating circuit water to an industrial global player. The thermal output will be 60 MW.

Since many years HERING has been supported this projects in the early engineering phase and is now looking forward to a successful project completion.
