### HERING AG supplies 16 exhaust gas heat exchangers to British Columbia

In February 2023, HERING AG delivered 16 exhaust gas heat exchangers to the Canadian province of British Columbia, and they have now been successfully in operation since several weeks.

The devices are used to recover heat from various natural gas-powered engines and supply the infrastructure of the newly developed gas field with hot thermal oil.

All devices were designed for outdoor installation up to  $-50^{\circ}\text{C}$  and meet local requirements.
