### Review 2017 – HERING continues expansion

The HERING AG looks back on the most successful year since the company formation. In the past year, Hering was successful and productive like never before.

The sum of delivered heat exchangers raised up to 270,976 KW, which is equivalent to an increase of 25% on the previous year. For illustrate that, with this amount of energy you could heat 94950 family-houses for one year. In addition, the sales and order-intake increased significantly. Hering sees itself well prepared for continues to grow significantly in the future through its expanded production capacities, new specialized staff and internationally developed sales channels.

Especially the international power plant and CHP industry will once again rely on the special solutions from HERING in 2018 – we're looking forward to it!

### Our productivity counter!

Units delivered in 2017

270.976

kW

January 1, 2017 through December 31, 2017
