Certification by MITSUBISHI HITACHI

Hering AG was rewarded the „Certification of Qualification“ by Japanese powerplant builder MITSUBISHI HITACHI, due to a long and satisfying cooperation. Only few suppliers get this reward. This points out the remarkable performance of HERING AG concerning oil coolers and gland steam condensers for power plants.

Since 2006 the HERING AG delivers heat exchangers for several MITSUBISHI HITACHI power plant projects worldwide and proved to be a reliable partner.

We are looking forward at a further cooperation that we will support with our best quality.

Don't hesitate calling us for further questions!
