HERING AG supplies complete exhaust gas line

HERING AG has been awarded with the manufacturing of a complete exhaust gas heat recovery system for a new cogeneration plant in Poland. Our scope of supply consists of 2 exhaust gas heat exchangers for the heat recovery after 2 natural gas engines, as well as 2 silencers according local noise emission requirements. Additional to these components HEING AG delivered the necessary Oxidations Catalyst, which can be installed in front of each heat exchanger, or in the inlet channel of the heat recovery units.
