Hering AG delivers thermaloil exhaust heat recovery

Hering AG produces a thermaloil heat recovery system with bypass and insulation for a CAT Engine in use of a popular canadian energy supplier in Calgary/Alberta.

The thermal output is approximate 1.100 kW.

The design and the manufacturing is according ASME Sect VIII Div.1 including CRN for Alberta and is thereby according local canadian requirements.

With this project Hering AG strengthen its position in the fast growing North American market.
