Hering AG delivers a 2-pass waste gas heat steamgenerator

Hering AG has delivered a 2-pass waste gas heat steamgenerator (HRSG) with safety equipment und controll-panel for a plant in Poland. The successful startup of the boiler was done a couple of weeks ago from HERING Service Department. The boiler will deliver reliable steam to the enduser (Destillery) for many years.

Plant data: 100 % single operation for each waste gas pass possible.
1.490 kg/h saturated steam at 6 bar g. Wastegas-Bypassflap-Control for each engine No 1 and No 2.
