Hering AG delivers stainless steel Gland Steam Condenser

Hering AG delivers the first of two stainless steel Gland Steam Condensers for two new blocks of an Ultra-supercritical (USC) coal-fired power plant in south-western Poland.

The thermal output of this Gland Steam Condenser is 1.976 kW.

The unit fulfills the high standards of the power plant industry and proves the imposing capability of Hering AG's separate stainless production.

With this project Hering AG demonstrates its leadership in the sector of additional components for steam turbines.
