HERING AG supplied 15 MW project to Canada

End of July HERING AG shipped 9 exhaust heat recovery units to heat up thermal oil to Canada. The thermal output of these units will be around 15 MW. Due to our reliable performance, also on cold winterdays with up to -40°C , several customers in Alberta and British Columbia rely on HERING products.

Project datas:

Engine: 9x CAT 3612

Application: Thermal Oil

Scope of supply: Exhaust gas heat exchanger + bypass and insulation for outdoor installation

Design: ASME + CRN (Alberta + British Columbia)
