HERING AG supplies Exhaust gas heat exchangers for „russian space mission launch centre Vostochniy“

HERING delivered 3 exhaust heat recovery systems for the new constructed space mission launch centre in Vostochniy, Russia which is located very close to the chinese boarder.

The waste gas heat exchangers are installed in a CHP system with 3 MWM TCG2032 engines and will produce 600m³/h of hot water.

All units are including mounted bypass and with EAC certification.
