Hering AG delivers heat exchangers for the first Ultra-supercritical (USC) lignite-fired power plant in Asia

Hering AG delivers three Twin-Oil-Coolers for the Boiler Feed Pump Turbines (BFPT) and the Main Steam Turbine as well as a Gland Steam Condenser for all three turbines.

The total thermal duty of this four heat exchanger units adds up to 3,721 kW.

A mass of more than 28,000 kg of carbon steels and stainless steels has been processed for the units. This equals a mass of about 20 passenger cars.
